

**POWERING CANADA'S  INDUSTRIAL & AUTOMOTIVE
WITH PREMIUM LUBRICANTS**

The Next Generation **Lubricants**

www.cnclubricants.com

CNC Lubricants is a leading manufacturer and marketer of industrial & automotive lubricants, greases, and specialties. We have taken significant strides in the field due to the superior quality of our products. We have a sound and sophisticated infrastructure equipped with the latest and most modern machines to ensure product quality.

ELIGATE GEL

NLGI-2 | LITHIUM BASE | MULTI PURPOSE GREASE

ELIGATE GEL is a premium multipurpose NLGI-2 grease formulated to provide excellent lubrication, wear protection, water resistance, and long-lasting performance under varying operating conditions. It helps extend component life while reducing maintenance requirements.

Applications: Ideal for automotive chassis, wheel bearings, agricultural machinery, industrial equipment, electric motors, conveyors, pumps, and general-purpose lubrication where reliable grease performance is required.

PACK SIZE 200gm, 400gm, 500gm, 2kg, 16kg, 50kg, 181.4kg

OCEAN BLUE

NLGI-2 | LITHIUM BASE | MULTI PURPOSE GREASE

OCEAN BLUE is a high-quality multipurpose grease designed for smooth operation under medium to heavy-duty conditions. It offers superior adhesion, oxidation resistance, rust protection, and dependable lubrication for extended service intervals.

Applications: Recommended for wheel bearings, chassis parts, industrial machinery, construction equipment, farm implements, electric motors, and general lubrication across automotive and industrial applications.

PACK SIZE 200gm, 400gm, 500gm, 2kg, 16kg, 50kg, 181.4kg

HECTOR -004 & 005

NLGI-00 & 0 | LITHIUM COMPLEX | AUTOMATIC GREASE EP-00 & EP-0

HECTOR 004 and HECTOR 005 are semi-fluid multipurpose greases specially developed for centralized lubrication systems. They provide excellent pumpability, corrosion protection, and reliable lubrication in enclosed gear systems and heavy-duty equipment.

Applications: Suitable for centralized lubrication systems, enclosed gearboxes, mining equipment, construction machinery, agricultural equipment, conveyors and industrial machinery operating in demanding conditions.

PACK SIZE 200gm, 400gm, 500gm, 2kg, 16kg, 50kg, 181.4kg

GEAR FLUID 75W-90 & 80W90

API GL-5 | HEAVY DUTY GEAR OIL

Premium heavy-duty gear oils formulated with advanced EP additives to deliver excellent wear protection, thermal stability, and smooth gear performance under high loads and extreme operating temperatures.

Applications: Recommended for manual transmissions, differentials, axles, transfer cases, commercial vehicles, off-road equipment, agricultural machinery, and industrial gear systems requiring API GL-5 performance.

PACK SIZE 1L, 5L, 19, 60L, 208L, 1000L

TRANS HD SAE 50

HEAVY DUTY MANUAL TRANSMISSION FLUID

TRANS HD SAE 50 HD is a high-performance manual transmission fluid formulated to ensure smooth shifting, superior wear protection, oxidation stability, and reliable performance under heavy-duty operating conditions.

Applications: Suitable for manual transmissions, gearboxes, commercial trucks, buses, construction equipment, agricultural machinery, and industrial transmission systems requiring SAE 50 transmission oil.

PACK SIZE 1L, 5L, 19L, 60L, 208L, 1000L

TRANSMAGIC ATF-DIII

AUTOMATIC TRANSMISSION FLUID | STEERING FLUID

TRANSMAGIC ATF-DIII is a premium automatic transmission fluid engineered for smooth shifting, superior friction control, excellent oxidation resistance, and extended transmission life while ensuring reliable performance under demanding operating conditions.

Applications: Recommended for automatic transmissions, power steering systems, torque converters, passenger cars, SUVs, commercial vehicles, and equipment requiring Dexron III performance.

PACK SIZE 1L, 5L, 19L

HYDROL AW- 32, 46, 68

ANTI-WEAR HYDRAULIC OIL

HYDROL AW Hydraulic Oils are formulated with premium base oils and advanced anti-wear additives to provide outstanding hydraulic system protection, oxidation stability, rust resistance, and smooth operation under high-pressure working conditions.

Applications: Suitable for hydraulic systems in construction equipment, industrial machinery, manufacturing plants, forklifts, presses, injection molding machines, excavators, loaders, and agricultural equipment.

PACK SIZE 5L, 19, 208L, 1000L

FLEET SAE 15W-40 API CK-4 PRIME SYNTH SAE 10W-30 API CK-4

High-performance heavy-duty diesel engine oils formulated to deliver exceptional engine cleanliness, wear protection, fuel efficiency, oxidation resistance, and long drain performance for modern commercial engines operating under severe service conditions.

Applications: Ideal for heavy-duty trucks, buses, mining equipment, agricultural machinery, construction equipment, generators, and commercial diesel engines requiring API CK-4 engine oils.

HEAVY DUTY ENGINE OILS

PACK SIZE 1000L

AQUA COOLANT 50/50 ANTIFREEZE

Ready-to-use 50/50 antifreeze coolant providing superior heat transfer, freeze protection, corrosion resistance, and long-lasting cooling system performance for both gasoline and diesel engines in extreme operating temperatures.

Applications: Suitable for passenger vehicles, heavy-duty trucks, buses, agricultural machinery, construction equipment, industrial engines, generators, and stationary cooling systems requiring year-round protection.

HEAVY DUTY RED & GREEN COOLANT

PACK SIZE 3.78L, 1000L
